OK, thanks.

We still need to get a short fact sheet to the RA by COB today. I'd suggest we say we have questions about the modeling methodology and the extent of the area, but it doesn't look like a big environmental issue, considering the high salinity and depth of the formation.

NMED has no issue with the El Paso exemption. NMOCD has not given their opinion.

Ray,

Thank you for providing the public notice link. I printed it and reviewed it with our Bureau Chief. NMED is satisfied with the modeling conclusions indicating that the plume will not enter into New Mexico; therefore, we have no comments for the public meeting.

If you have any further questions or updates for us, let me know.

Thanks,

John S. Hall

Subject: Exemption notice

John,

TCEQ's notice is about half way down the list.
